

GHG* Insetting Confirmation Document (ICD)

Delivered to: Pyramid Computer GmbH
Bötzingen Straße 60, 79111, Freiburg in Breisgau

Date: 28. January 2025

Reference #: 2025-BF-174-4

Cargo volume:	Allocated quantity of biofuel:	Reduced CO2e emissions (Well-to-Wake):
12 TEU	3.02 mt	9.44 mt

Using biofuel, a Sustainable Marine Fuel (SMF), is currently the only viable option to instantly reduce Scope 3 emissions from your shipments. The Kuehne+Nagel biofuel concept is based on next generation biofuels according to RED II and allocates fully traceable contingents of biofuel to your cargo volumes. Kuehne+Nagel's General Terms & Conditions for environmental solutions apply.

*Greenhouse Gases

Additional information on Kuehne+Nagel's sustainability programmes can be found at www.kuehne-nagel.com.
